

Help the Waccamaw Library "B" even more...

Support the 3B's!

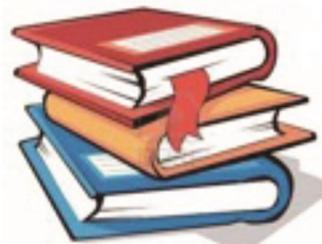

BRICKS

- Purchase one or more 4" x 8" bricks for \$60 each and use one of the brick order forms for each brick to inscribe the message that you would like to add to our commemorative walkway adjacent to the flag pole.
- Profits from the sale of the Phase I bricks were used to purchase books and science kits for the Children's Area.
- Profits from the sale of Phase II bricks will be used to purchase similar items that are not available from budgeted funds.

A donation of:

\$60 each

Buys a 4x8 brick paver with a 3-line message engraved.

BOOKS

- Growth of the book collection was restricted over the past years because of budget issues and the limited shelf space in the old library.
- Our new library has sufficient shelving to enable us to broaden our collection with more large-print materials, to substantially enlarge the "tween and teen" reading collection, to add a game area and to purchase more volumes of current popular literature.
- It is our goal over the next several years to triple the number of volumes in our collection and update and enlarge many of our reference collections.

A donation of:

\$300

Buys a shelf of books, with a 3-line message engraved in the donor recognition area.

BYTES

- The Waccamaw Branch Library is a modern 21st century library with more than 40 computers for use by patrons and staff.
- Computer technology is changing rapidly and there will be a constant need for new computer terminals, monitors, software, training programs and access to online research and reference sources.
- Funds donated for "Bytes" will be used to assure that our library patrons have access to the latest computer hardware and software.

A donation of:

\$1000

Buys computers & software, with a 3-line message engraved in the donor recognition area.
