Upcoming FREE classes and help!

Basic Computing Skills

Every Monday at 10:30 a.m.

This fun, casual class gives you hands-on practice with computers. We explore everything: how to use the mouse, how to explore the Internet, how to set up an email account, typing tutorials, Microsoft Word and Publisher, how to use Facebook, and much more!

Personal Job Search Assistance

Small Business Center staff love helping with resumes, job searches and interview skills! Come get one-on-one help polishing your curriculum vitae, or try a mock interview with us! We've also been trained on the SC Works job search system, so we can help you with their requirements.

Small Business Marketing Assistance

Small Businesses need to market their products, but that can be expensive. Come learn how to design your own flyers, write press releases, make business cards, put your business on Facebook, and more!

Check out our videos, starring local kids!

We also have a growing series of interviews with thriving local small businesses! They're available for viewing in our Heritage Center, or you can check them out to watch at work or home.

Financial Fitness for Everyone...

As part of a "Smart investing @ your library" grant from FINRA and the American Library Association, we're proud to offer a selection of financial resources for all ages. Just click below and explore the ways you can spend smarter, save more, teach your kids about money, and prepare for retirement.
