

Using

OVERDRIVE

with your

Barnes & Noble

NOOK

Before you start:

You must have a current **Georgetown County Library card** to use Overdrive. If you don't have a library card, come visit us at any branch to get one.

You'll also need a **pin number**. If you don't have one yet, give us a call at (843) 545-3300 to get one.

Step One: Download Digital Editions

You must have **Adobe Digital Editions** on your computer to add new titles to your Nook. It's a free program.

To download, go to **<http://www.adobe.com/products/digitaleditions>**.

Create an Adobe account, using the same e-mail address and password you used when you established your Barnes and Noble account to register the Nook.

Step Two: Browse for Books

Time to browse! Visit the Georgetown County Library website at <http://georgetowncountylibrary.sc.gov>. Click on the **Find a Book** tab. Select Overdrive Audio and eBooks. Select “Click here to check out the digital catalog.”

When you locate a title you wish to check out, click on it and add it to your cart for the **Adobe EPUB eBook**.

Done browsing? Click on **Proceed to Checkout**. Select **Georgetown Library** in the drop down box. Enter your library card number and pin number. Click **Confirm Checkout** and minimize your Overdrive screen.

Step Three: Send to your Nook

Connect your Nook to your computer. Click **Download**, then **Save**.

Now click on **View Downloads**. When your book(s) appear, click **Open With**. Select Adobe Digital Editions and click **Ok**.

Your title will appear in the Adobe Digital Edition program. Click on it and drag it into your **Nook** folder of the left of your screen.

Step Four: Time to Read!

Your title will appear on your Nook. **You're ready to read!**

After two weeks, the file will not open and can be deleted by accessing your Barnes and Noble account online.
