

GAMERS GUILD!

COMING THIS SUMMER TO THE ANDREWS BRANCH LIBRARY

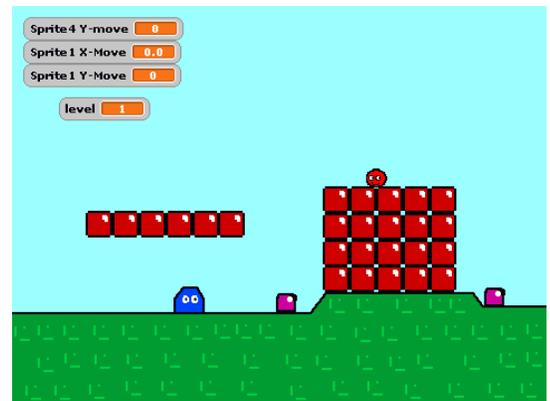

Students ages 9 - 14 are invited to participate in a free, 8-week program, to build creative, interesting projects through programming.

Starting Monday, June 8, at 10:30 am.

We'll be designing and coding our own working video games - a different style each week - from racing and mazes to falling object and platform games.

Don't miss this chance to escape the ordinary at your library this summer!

There are only 12 spaces available so call 545-3621 to sign up now!
