## **YOU'RE INVITED !**

**A lunch-time discussion for parents, grandparents, and teachers about that fast journey between the present and the future and what we can do to help our children travel the road to success.**

**Nationally certified Parenting and Family Life Educator, Jim R. Rogers, will lead the discussions over a three week period with brown-bag lunch with his book included.**

**Helping our children find their way in the world is one of the most important tasks we have as adults and caregivers; much more important than many of the other social issues to which we give our time and attention. And it could be a once-in-a-lifetime chance to make it a job well done! This is an opportunity to explore some of the most effective ways we can help to secure a more stable and productive future by providing safe and effective guidance for the adults of tomorrow.**

**The first discussion will be introductory, meeting each other and exchanging experiences about the challenges of raising children in the complicated world of today. The discussions will be open ended, with time for questions and abundant interaction. No lecturing, no blame, no fixing. Just looking for answers together.**

**Come join in.**

**Jim is the author of *The Incredible Importance of Effective Parenting: Plain Talk about Raising Children from a Concerned Field*. He was a columnist for Parent News, a regional specialty newspaper for 20 years, and conducts parenting meetings all over our area in a variety of venues.**
